Carnival at Rink Christmas Week

Cold Weather Has Not Deterred Enthusiasts from Enjoying En-hilaration of Winter Sport

The big attraction for the week after Christmas will be the fancy dress carnival at the skating rink. The town council and the rink management are co-operating in this event, and Harry Boulton and Walter Purvis are busy men getting the program arranged and assuring the public that there will be a liberal list of good prizes. They also state that if there are sufficient entries dog races with sleighs will be arranged.

PRIZES

A. M. Morrison, \$4.90 radio supplies; Antrobus Shoe Store, \$3.00 pair leather slippers; Sam's Service Station, \$2.25 flashlight; Pattinson Hardware, \$2.50 boy's or girl's hockey skates; Leosky & Leslie, 49-lb. sack of flour; C. Nicholas, \$2.25 gent's dress gown; Allan's Grocery, 49-lb. sack of flour; G. R. Nail, \$2.00 shirt; Mrs. H. R. Gate, silk step-ins; Cabinet Cigar Store, \$3.25 pipe; Coleman Hardware Co., 4.00 marble clock; Rushton's Grocery, box of Jap oranges; Coleman Trading Co., 2.25 box of apples; "Bob the Tailor", 2.00 in trade or work; S. Jarostak, 2 pairs silk stockings; O. R. Powell, 4.50 Jandierine; H. C. McBurney, 4.75 box writing paper; Coleman Journal, 3 yearly subscriptions.

A Gift Suggestion

If you have a relative or a friend to whom you would like to send The Journal for one year as a Christmas gift, just give their name and the subscription price of \$2.00 for Canada, and \$2.50 for the United Kingdom or the United States, and a greeting card will be forwarded them stating from whom the paper is sent.

Left for Toronto

Mr. Alex Cameron left on Tuesday for Toronto to spend two or three months with relatives. Christmas will take the form of a family reunion, in which two sisters and a brother of Mr. Cameron and himself will take part, namely, Mrs. W. R. McCrae, of Toronto; Mrs. William Tulloch and Mr. Donald Cameron of Mitchell, Ont., and Mr. Cameron of Coleman. It is thirteen years since Mr. Cameron was back east, and he will probably remain in Ontario visiting old friends till the end of March.

Notice of Meeting

A meeting of the War Memorial committee is called for Thursday, December 22nd, at 7.30 p. m. in the council chamber.—P. Smith, Secretary.

Polish Community Hall to Open on Sunday

Unity of Effort Results in Fine Hall Being Built by Polish Society

A grand concert will mark the opening of the fine new hall erected in East Coleman by the Polish people on Sunday afternoon at three o'clock. A fine program of instrumental music, including piano and violin selections by Mr. W. J. Harris and Miss Mary Baron, besides songs and other numbers, has been arranged, and the people of Coleman are extended a cordial invitation to attend.

The hall was erected by the Polish Brothers Aid Society, the committee of which is Paul Churla, Tom Rypien, B. Polack and A. Sapeta, and the members of the society have contributed with free work and money towards the building, which is 40x80 feet, with full basement and heating plant.

Rink Directors Held Meeting

At the meeting held last week the following directors were appointed: H. Boulton, H. C. McBurney, J. Scott, J. S. D'Appollonia, W. J. Burns, Mrs. A. W. H. McLeod, W. S. Purvis. A vote of thanks to Mr. W. L. Rippon was unanimously passed for his services as auditor and to the retiring directors.

At a meeting of the directors held last week H. C. McBurney was elected chairman and R. F. Barnes continued to act as secretary.

Messrs. Boulton and Purvis were appointed managers of the rink, and Mr. Purvis is to be ice supervisor with full power to discipline any skater proving to be a detriment to the pleasure of others.

It is hoped that the public will co-operate with the directors and help to maintain the rink as it is of vital interest to all citizens to see that the benefits of this enterprise are not lost through lack of support and co-operation.

A writer remarks that with the high cost of living and the altitude to which the price of turkeys has soared, it is only plumbers, bootleggers and others of fabulous and taxable incomes that can afford them as a steady diet. But high in price though they be he is going to have turkey this year, even if he has to sell the piano. For a Christmas dinner without turkey is like an "Uncle Tom's Cabin" without bloodhounds, or "Hamlet" without a ghost.

A meeting was held on Sunday in the K. of P. Hall which was addressed by an official of the Mine Workers Union of Canada. The objective of the Canadian Union is to enrol all mine workers in the Canadian Union, instead of some belonging to the American Union.

Work Commenced for Erection Bank Building

Contractor D'Appollonia Started Excavation Today—Completion by April

With the opening of spring the Canadian Bank of Commerce will be in its handsome new quarters to be erected on the Price corner, work on the excavation having started today. The building, a one story brick, with full basement, will make a nice improvement to the business area of the town, and will cost the interior fittings about \$12,000.

The present bank building and site has been purchased by the school board, and will probably be utilized for the ever increasing number of school children.

Herald Attains Its Majority

The Lethbridge Herald records with pride in its issue of Monday that it enters on its twenty-first year, and reviews the progress made in Lethbridge since it started publication. It states that "the modern newspaper is an institution for public service and with that thought before it The Herald has made its contribution to the life of Lethbridge and the large area tributary to it."

There is no gainsaying the fact that it lives up to its motto of "Serving the South," and should be given the credit for the very thorough manner in which it gives the news of Southern Alberta in addition to the daily news.

Personal and Local

Idris Haysom is making good progress following an operation for appendicitis, and expects to leave the hospital at the end of the week.

Chris Rogers is reported to be making steady progress towards recovery following the serious injury he received a few weeks ago. The arm was amputated close up to the shoulder, but it is hoped that later it will be possible to fit an artificial arm.

If hard luck ever pursued a man it is Noah Davies who is the unluckiest one. He was in hospital for several weeks with a broken leg and had only nicely got started to work again at the International mine when he again broke his leg.

Miss Florence Cox, graduate of the Jean Carroll School of Beauty Culture, Calgary, will do marcelling, etc., in the evenings and on Saturdays by appointment at Mrs. W. G. Fraser's. Phone 295D.

The closing out sale at Powell's jewelry store continues. The customers that have made their purchases are spreading the glad news that doing your Christmas shopping during this sale saves you money.

We can assist you in the selection of a present for her or him.—Powell's jewelry store.

Christmas is when we buy presents for other people and New Year when we make resolutions for our selves. Wouldn't it be glorious if we could buy presents for ourselves and make resolutions for other people.—Ex.

Merry Time at Elks Dance on Friday Last

Next Big Event is the Ball at the Grand Union on December 30

The Elks' whist drive and dance held last Friday evening proved a decided success. The turkeys were won by Mrs. B. Bertie and Mr. C. W. MacKinnon, while the chickens went to Mrs. Wm. Bell and Mr. M. W. Cooke. After lunch was served dancing was indulged in until 1 a.m. Messrs. Evan Smith and Parkinson rendering music much to the satisfaction of all. The Bills are now getting under way for their big dance on Dec. 30.

Those pearls from Powell's make her a nice Christmas present.

DECIDE NOT TO CENSURE FORMER PREMIER DRURY

Toronto.—After hours of verbal battling and fiery speeches, some of which went far back into the past and resurrected events in the almost forgotten history of the farmers' movement, after motion, amendment, and amendment had been moved and discussed from many angles, the United Farmers of Ontario, in annual convention here decided not to censure former Premier E. C. Drury for the part which he took in the North Huron by-election. The decision was reached finally after R. H. Halbert, a former president of the organization, voiced a strong plea to delegates to forget their differences and unite. He asserted that there was a rift in the organization which, if it was not healed, might result in weakening still further an association which directly showed a great decrease in membership strength.

The convention also endorsed J. J. Morrison, general secretary of the U.F.O., after he had denied charges that he had tried to dominate the farmers' organization and also that a "family compact" existed. Those accusations had been leveled from the political platform in West Elgin by Mitchell Hepburn.

As a result of the decision on Mr. Drury's action, the convention turned a censure resolution into one which carries with it no criticism for any body, instead of censuring only those who attacked the U.F.O. candidate North Huron from the Liberal platform, the resolution as amended and then amended again, merely approves the action of the North Huron United Farmers in the by-election. The classes of censure, which were aimed at Mr. Drury were eliminated.

Overwhelming defeat crushed resolution 21, calling for the dispersal of the U.F.O. political committee and barring United Farmer members of provincial and Dominion Houses from sitting as U.F.O. members.

League Would Reduce Number Of Meetings

Advocate Three To Four Council Sessions Each Year
London.—The Daily Telegraph publishes the following from its Geneva correspondent:

The council of the League of Nations yesterday discussed the proposed reduction of the number of council sessions from four to three each year. Sir Ron. Sir Austen Chamberlain, British foreign secretary, originator of the proposal, again emphasized that the only reason for the suggestion was that it was most important that as many foreign ministers as possible from the various states which were members of the council should participate, and that they might find it difficult to go to Geneva four times each year. Sir Austen said he would not persist with the proposal if it did not meet with general approval.

A preliminary exchange of views took place between the Netherlands, Italian, Chinese and German representatives and the question was adjourned until a future private meeting of the council.

Committed For Trial

Chen Charged With Collecting Information About British Forces For Soviets

London.—George Hansen, a German, and Wilfred Francis McCartney, described as an Irish American, were committed for trial before the central criminal court on charges brought under the official secrets act by a magistrate in Bow Street Court.

The two prisoners are alleged to have attempted to collect information about the British army forces, particularly the air force. At a previous hearing it was brought out that the men were gathering information believed to be useful to Soviet Russia.

Awarded Nobel Peace Prize
Oslo, Norway.—The Nobel peace prize has been awarded to Professor Ludwig Quidde, of Germany, and Prof. Ferdinand Buisson, of France. Buisson is president of the League for the Rights of Man. Quidde is a well-known pacifist and the originator of many schemes for international peace.

Again Threatened By Flood
Oran, Algeria.—Fresh danger threatened the region in Northwestern Algeria, recently swept by a serious flood. A number of points which escaped the previous disaster are now under water.

W. N. U. 1711

May Tap U.S. Aerial Mail

Postal Department Considering Lines Where Service Would Be Given
Ottawa.—The tapping by Canadian aerial mail service of the American aerial mail service at convenient points of transmission is under consideration by the Post Office Department. The scheme, broadly, is that with a service from Montreal, the United States services could be tapped at Syracuse or Albany, enroute to New York, while another line from Chicago would effect a junction with the United States service at Chicago and St. Paul, and on the coast planes from Vancouver would fly over to Seattle. The Canadian air service would either be by the air force along the lines of the experiments now being carried out or by a private company of Canadians.

Recently an offer was received from a New York firm for establishing a service to Montreal, but this was not entertained. If the plan is proceeded with, and it is now in the inquiry stage, it would be broadly national and calculated to connect with the United States service at centre in the East, Middle West and Pacific points across the line.

Aerial mail services have reached a high stage of development, although the mail service is essentially rather than bulky stuff, and, at that, of the more urgent class which is special delivery rate.

Gold Shipped From New York To London

First Time Since Outbreak Of World War
New York.—Gold has been removed from New York to London for the first time since the outbreak of the Great War in 1914. The shipment, which amounts to \$10,000,000 was announced by the "International Acceptance Bank Inc.," but with the exception of a statement that it was a "special transaction" no details were made public.

The gold in the form of coin, was removed from the vaults of the Federal Reserve Bank of New York for forwarding on the Cunard liner, Aquatuna, to a correspondent in London. Although the seasonal advance in sterling exchange had caused Wall Street to include in its calculations the possibility that part of the huge hoard of gold accumulated in this country since the war might be transferred to England, announcement that a shipment actually had been arranged occasioned some surprise.

For Royal Clemency

Officers Under Manitoba Liquor Laws May Receive Consideration
Winnipeg.—Although the sensational royal campaign towards offenders under existing liquor laws is now in circulation.

Contending that they have sufficiently paid for their misdemeanors under former laws, a number of friends and relatives of persons whose jail terms will not have expired by the date when the new consolidated liquor laws are likely to have passed have organized to bring a petition to the Government to liberate these prisoners at that time. Although the Government's view of the petition is not yet known, it may be contended that these prisoners, others actually committed to jail after the passing of the new act are still subject to punishment under clauses in the new legislation.

Observe Friendships Pact

Tryst Kept At St. Paul's Cathedral After 22 Years

London.—Observing a pact of friendship made 22 years ago, four men met on the steps of St. Paul's Cathedral one day recently and sang "Auld Lang Syne" with joined hands. They were survivors of a party of eight friends who, in 1905, when fellow-workers, made a pact to meet at St. Paul's 20 years later. The tryst was kept two years ago by the four, two of whom others having fallen in the war and two having died. The survivors agreed to make the gathering an annual event.

As the friends were on the point of leaving the Cathedral to go to dinner together, they were joined by the widow of one of their former colleagues, who, with her daughter, had come to keep the tryst on behalf of her late husband.

Wins More Awards
Guelph, Ont.—W. J. McCullum, of Brampton and Regina, was a big winner at the provincial fair yesterday, capturing both championships in the Freshman classes at senior and grand champion at his Lord Wellington, a young animal which went to the top at both the Toronto Royal and the Ottawa Winter Fair.

Government Ownership Failure In Belgium

System Yielded More Revenue In Hands Of A Company
Brussels.—So successful has been the first year of Belgium's experiment with quasi-private instead of government ownership of the railroads, a change forced by the financial panic of a year ago, that the postoffice, telephone and telegraph systems are destined soon to be taken out of the ineffectual hands of the state.

The whole public ownership system, which potentially is a gold mine, yielded a mere \$1,000,000 last year although the railroads never yielded anything. With the Socialists out of the cabinet and a member of the Liberal party at the head of the department, it is expected that M. Frangul, in the case of Belgium, a more variable dictator of the country's financial policy will seize the opportunity to give the theory of public ownership another body blow, making the system yield real money in the hands of an autonomous company. Public opinion is actually aware of the success of the railway experiment and is considered ripe for the transfer which was impossible even 15 months ago.

Underpaid Farm Help

Says Low Wages Paid To Farm Women In Ontario
Toronto.—That no self-respecting domestic servant would work for the wages which farm women get for their labor, was the statement by Mrs. Miles Oper, of Leamington, Ont., in the course of her presidential address at the annual meeting of the United Farm Women of Ontario. She felt that economic conditions were far from satisfactory for farm women.

Concerning the cranial pool, Mrs. Oper said the women were hopeful of its success. A drop in membership from 2,312 to 2,011 was reported by the secretary.

FEDERAL SURPLUS OF 60 MILLIONS IS REPORTED

Ottawa.—With eight months of the fiscal year closed, the surplus of Dominion revenues over expenditures stands at rather more than 60 millions of dollars.

During the month of November the net debt of the Dominion, largely as a result of interest payments on loans, increased by \$17,722,000, but taking the eight months as a whole the reduction in net debt now totals \$60,781,000. Prospects for a substantial surplus in the next budget, with consequent reduction in taxation, are therefore regarded as very bright.

The decrease in net debt is 15 millions ahead of what it was on the same date last year.

Total revenue over the eight months shows an increase of 21 millions of dollars last year; total expenditure an increase of five millions.

Customs duties are up nine millions and excise duties up five millions. Income tax is up six millions, post office three millions. Excise taxes (sales, stamps, etc.) are down ten millions.

On Nov. 30 the net debt of Canada was \$2,237,649,783; on Nov. 30 last year, it was \$2,341,426,755.

New Coastal Steamer For C. P. R.

An important addition to the Pacific Coast fleet of the Canadian Pacific was launched recently from the yards of John Brown and Co., at Glasgow, and christened "Princess Elaine". This new vessel follows along the line of the coastal steamers of the company plying between Vancouver, Seattle, Vancouver Island and Alaska.

The "Princess Elaine" is about 900 feet in length, with a gross register of 2,000 tons. She has been designed to maintain a speed of 19 knots an hour, being driven by three screws. After delivery some time in February, she will be placed on the run between

Champion Girl High Jumper

Elith Catherwood of Saskatoon, the sensational western Canadian girl high jumper, who won the Canadian high jump championship and set up a new record of 5 feet 2 inches last summer, will in all probability be an addition to Ontario's strength after the first of the year. Her manager says she is coming east to make her home.

Northern India Swept By Cholera Epidemic

Scripps Has Also Broken Out In Bengal District
Calcutta, India.—Spread of the cholera epidemic to the whole of northern India is feared as the weekly death toll from the scourge rises alarmingly. Deaths at Dajpur decreased from 42 in seven days to 24. Malda from 436 to 617; at Noakhali, from 62 to 177; and at Howrah, from 61 to 78.

Western Bengal is the worst affected district. The density of the population in northern India and the frequency of travel intensifies the danger in that great territory. The epidemic is becoming more acute in Calcutta, where 2,138 deaths were reported a week ago. In 14 Bengal districts, a violent smaller epidemic has broken out, adding to the gravity of the situation. More than 100 persons died in Calcutta over the week end from smallpox alone, while deaths in the Bengal districts increased.

Fire Chief Retires

Winnipeg.—Winifred J. Fire chief, J. B. Buchanan, has handed in his resignation after 42 years of service. Chief Buchanan came within the recently adopted provisions of the pension law which requires every civic employee to retire on pension on attaining the age of 65, if he has 20 years' service to his credit.

Offer For Saskatoon Street Railway

Saskatoon.—An offer to pay the city \$1,000,000 in cash for the street railway and the electric power plant is being made by a syndicate of capitalists to take over debentures on the same, are high lights in a communication that G. M. Yule, K.C., acting on behalf of C. J. Yorath, president of the Mid-West Utilities and his associates, handed into the city hall here.

To Investigate PIONEER BELTS OF THE WORLD

Ottawa.—Canada will co-operate with the organization of the United States National Research Council in an investigation of the fire-pioneer belts of the world. The survey will be made with a view to determining the capacity of these belts to assimilate migration and increase the production of food supplies.

The Dominion, Siberia, Australia, South Africa and South America are the countries in which the leading pioneer belts are situated in Canada, the belt extends through the northern portion of the country from the Atlantic to the Pacific.

The scheme originated with the United States organization, looking toward the time when that country may require to import a greater quantity of food and when a surplus of American citizens may wish to find new homes. A resolution, it is quoted, was passed by that body several months ago asking for cooperation in the work of investigation.

Dean Rutherford of the University of Saskatchewan, Dr. McIntosh and Mr. McArthur, of Queen's University, Kingston, walked upon Premier W. L. Mackenzie King and members of the cabinet in the matter. The delegation, which was heard in camera, urged that the Dominion Government co-operate by providing every available assistance through the various federal departments. After hearing the representations Premier King promised the assistance of the federal department would be given. Already, it is understood, the department has indicated their intention to co-operate.

Claims Continents Are Drifting Apart

Difference Of Three Feet Yearly Between Europe and America
Says Scientist

Ottawa.—A variation in time differences between Kilo, Ottawa and Greenwich, England, has been noted by officials at the Dominion observatory since longitudes were checked in 1904. Support thus is lent to the theory of Professor Wegener, eminent German scientist, that the continents of Europe and America are drifting apart.

Further comparisons will be made in another ten years and if the variation continues the Wegener contention will be regarded as confirmed.

Professor Wegener was struck by the fact that there were peculiarities in the coast lines of Europe and Africa which apparently fitted into indentation in the coast lines of North and South America. He conceived the notion that at one time the four continents had been one but had been driven asunder by a mighty cataclysm of nature and were still drifting apart at the rate of approximately three feet a year.

Thousands Fight For Sacred Relic

Hindus Pay Huge Sum For Garments Of Widow

London.—Thousands of Hindus fought to obtain fragments of the sacred clothing of a Hindu woman who suffered fatal burns attempting to perform the ancient rite of sati—self-immolation of a widow with the body of her husband—says a dispatch to the Evening News from Allahabad.

The widow, who was rescued by the police from the funeral pyre of her husband, subsequently died of her burns, and her body was thrown into the sacred Ganges near Patna. Hundreds of rupees were paid for possession of her garments, which are regarded by the Hindus as sacred. Fifty 15,000 Hindus sought to obtain fragments of her clothing.

Travelled By Dog Team

McCall, Idaho.—A dog team carrying medical aid to a dying boy across a hundred miles of bleak Idaho made the record of 100 miles in 100 hours. The team was believed to have won its race.

Traversing the rugged snow-covered hills in bitterly cold weather, the team reached the Woodworth Mine in the Thunder Mountain in time for Dr. Don Numbers to administer to Emmett Rounton, 20.

Mr. Numbers began his trip to the mine by automobile. Heavy snow blocked him, and he enlisted the aid of Roy Stover, musher, and a team of crack sled dogs. Young Rounton was stricken with influenza and hemorrhages, and hope was given up for him unless medical help arrived quickly.

TO INVESTIGATE PIONEER BELTS OF THE WORLD

Ottawa.—Canada will co-operate with the organization of the United States National Research Council in an investigation of the fire-pioneer belts of the world. The survey will be made with a view to determining the capacity of these belts to assimilate migration and increase the production of food supplies.

The Dominion, Siberia, Australia, South Africa and South America are the countries in which the leading pioneer belts are situated in Canada, the belt extends through the northern portion of the country from the Atlantic to the Pacific.

The scheme originated with the United States organization, looking toward the time when that country may require to import a greater quantity of food and when a surplus of American citizens may wish to find new homes. A resolution, it is quoted, was passed by that body several months ago asking for cooperation in the work of investigation.

Dean Rutherford of the University of Saskatchewan, Dr. McIntosh and Mr. McArthur, of Queen's University, Kingston, walked upon Premier W. L. Mackenzie King and members of the cabinet in the matter. NEW PLAN TO END TROUBLES OF LITHUANIA

London.—The Daily Telegraph publishes the following from its Geneva correspondent:

It is understood that the following solution will be submitted to the council of the League of Nations for a clearing of the Polish-Lithuanian situation.

1. Poland shall agree to recognize the full and complete independence of Lithuania as a sovereign state.

2. The present so-called "state of war" between the two parties shall cease and more normal relations shall be established which, however, need not mean the resumption of consular or diplomatic relations, but may bring about a reopening of railway, postal and telegraphic traffic as well as the transmission of traffic through Lithuania and Poland to neighboring countries.

3. The League council is to appoint a commission to visit both sides of the frontier between these two countries and report upon the alleged mobilization of troops by Poland and also the existence of irregular bands which have been molesting the frontier villages, responsibility for which each country accuses the other.

The real question at the root of the whole dispute, namely, the occupation of Vilna by Poland, remains unsettled until March.

Brings Damage Action

New York Historian Claims Anti-British Inquiry Injured Him

Chicago.—Former Congressman John J. Gorman, appointed by Mayor Thompson to make an investigation of "Pro-British" talk in Chicago school histories, finds himself defendant in \$10,000 damage suit brought by Prof. David Saville Murray, of Columbia University.

The New York historian filed his suit in the United States district court here while Gorman removed his money at the trial of William McLean Reed, suspended superintendent of schools.

Murray charged that the former congressman "wickedly and maliciously" attempted to expose him to public hatred, contempt, and ridicule, when he reported that Murray's histories showed evidence of British influence and belittled the work of foreign-born patriots of revolutionary times.

Motion Of Censure Defeated

Ramsay MacDonald, Labor Leader, Moves Vote Of Censure Against Baldwin Government

London.—A motion of censure moved in the House of Commons against Premier Baldwin for his failure to participate in the coal debate on November 16 was rejected by a vote of 347 to 142.

The vote of censure was moved by the Labor Leader, Ramsay MacDonald, and a seven-hour debate ensued. The Prime Minister, in the course of his remarks, explained the manifold tasks imposed upon him, and intimated that the duty of leadership in the House would eventually have to be delegated to some other minister.

Used Radio For Press Messages

Batavia, Dutch East Indies.—The first attempt to transmit messages for the press by radio telephone between Europe and Asia has been carried out by the Dutch Telephony Administration, and was declared to be highly successful. Rates was in communication with The Hague for more than two hours. The reception here was clearer even than in ordinary local communication.

Flying Fatalities

Washington.—From January 1 to October 31 of 1927, the first year of Government regulation and assistance of commercial flying, there were 109 persons killed in plane accidents and 50 injured in aerial service conducted for profit. It was revealed by national statistics.

Coolidge Will Not Run

Washington.—In his own words, Calvin Coolidge is "eliminated" as a candidate for President in 1928. He has not changed his stand of August 2, when, in the Black Hills, he said he did not choose to run, and he is emphatic now that "my decision will be respected."

Unemployed In Britain

Official statement of the various departments. After hearing the representations Premier King promised the assistance of the federal department would be given. Already, it is understood, the department has indicated their intention to co-operate.

Make Christmas Safe for Children

With the great pleasure and fun of Christmas time it seems sad there should ever be any tragedy or accident as often is the case. Make up your mind that Christmas in your home will not only be happy, it will be safe.

Let there be extra watchfulness that the decorations of ten used at this season, as well as the candles, are in no danger of taking fire. Indeed, health authorities are urging the custom of lighting candles on the Christmas tree should be abolished altogether, as the risk is too great. Watch your little children if there is an open fireplace and Santa's stockings are hung near by. "Better be safe than sorry" is a good motto at a Christmas party.

The Gift Custom

In spite of complaints about the abuse of the Christmas gift habit, it is really a most beautiful custom, and one likely to be permanent without future limit, so far as one can see now. During about three hundred working days thru the year we busy ourselves with personal striving for our own benefit and that of our families. It is a fine thing to have one day set apart when we think a little of trying to confer happiness, instead of enjoying it all ourselves. The spirit of Christmas penetrates the hardest heart and the tightest purse. It makes people human beings and kind neighbors.—Cranbrook Courier.

Peace Sunday

The Sunday immediately before Christmas is being observed throughout the United Church of Canada as Peace Sunday. The appropriateness of this at this season is easily seen.

The Sunday evening service will be devoted to this matter and it is hoped that there will be the usual good attendance. Reference will be made to the work and projects of the League of Nations. A cordial invitation is extended to all interested to attend.

The books of the United Church close at the end of December. There are a number of people who subscribe at this season if they are asked. Those who have not been seen and wish to help may pay their gift into the church account at the bank, or give or send it to the treasurer.

Radio Is A Lasting Gift

Of all the Christmas gifts none will meet with greater enthusiasm than a Westinghouse radio set. It is a gift that the entire family will enjoy, for day after day your home will be flooded with countless hours of enjoyment.

In the complete line of Westinghouse Radio Sets and Radiolas you will find a model to suit your requirements, locality and your pocketbook.

For example the Model 57—a battery operated set many times as selective as the average set. Otherwise known as "the greatest value in radio". Contains every improvement found in a set at twice the price. One dial control. Wide tonal range. Operates on the newly perfected UX-201-B radiotron which cuts operating costs in half. The price, without accessories, is only \$78.00! Come in to-day and judge this model for yourself.

Successful Bazaar

The St. Alban's bazaar held in the K. of P. hall on Saturday last was a decided success in every way, in spite of the bad weather, and around the sum of \$170 was realized. Everything was sold and the tea tables were kept busy the whole afternoon. The children supplied the music from the contents of their catch in the fish pond. The doll lamp was won by Mrs. J. Asbridge. The decorated cakes donated by Mrs. G. Snod was drawn for at a later date. The W. A. wish to thank all those who sent donations of any kind, also the ladies and girls who gave their willing help at the tea tables.

Christmas at the United Church

Members and friends of the United Church are asked to take note of the arrangements for the Christmas season. The Christmas Tree and entertainment will be held on the evening of Thursday, Dec. 22.

At eleven o'clock Christmas Day there will be a united service for the Sunday School and the congregation. This should be well attended. The regular session of the Sunday School will be cancelled.

For this service, in place of a sermon, there will be a reading of Van Dyke's story "The First Christmas Tree." There will also be a Perry picture for each child present. Parents and children should combine to make this a family service.

In the evening the subject of the sermon will be based on the text "Let us now go even unto Bethlehem." Seeing that Christmas comes on a Sunday we should this year give it the really religious consideration for which it calls.

There will be a service in the church at eleven o'clock on New Year's Eve. This is a custom which has been allowed largely to fall into disuse. Let us bring it to life again.

The congregation is reminded again that the books close on Dec. 31st. Will those in arrears with their pledges and offerings do their best to bring these up to date by that time. The managers would appreciate this very much.

COLEMAN ALBERTA

The Salvation Army

On Sunday next a memorial service will be held in the citadel for Colonel Thomas Coombe, who died on Friday, Dec. 10 at Vancouver. He had recently been appointed to the rank of full colonel with special work in Vancouver, and prior to that was field secretary in Winnipeg. He helped to make out the appointments of the last session of cadets, from which Captain and Mrs. J. Hind were appointed.

The recent visit of Commissioner Rich proved very interesting, his illustrated lecture on the work of the Salvation Army in foreign lands being not only interesting but educational in visualizing the splendid mission of service and sacrifice of the Army. For over two hours he held the keen interest of the audience, and his visit stimulated renewed enthusiasm in the work of this world wide organization, which has been developed solely by faith accompanied by good works and service to the poor and downcast.

Gingham Flour Sacks

Make many useful things

Every sack containing Mother's Flour is made from a yard and a fifth of the best quality gingham, 36 inches wide. The sack cuts without waste.

This gingham costs you nothing. Makes pretty curtains, table covers, aprons, children's dresses, rompers, and so on. The printing on the sack readily washes off.

Mother's Flour is economy in more ways than one. It is an all round family flour of highest grade. Tested every hour while being milled so as to assure absolute uniformity.

WORLD HAPPENINGS
BRIEFLY TOLD

The Baff winter carnival is to be held the week of February 1 to 11 this winter.

Sweden's first woman Judge, Miss Mary Trangg, has made her debut in the county sashes at Svarstad, near Stockholm.

The annual dog racing classic of Eastern Canada, the Eastern International Dog Sled Derby, will be run again at Quebec City, February 20-22.

The first Anglo-German hockey game since the war was played at Folkestone, England, December 8, and resulted in a draw with a score of 2-2.

A caution is issued at Ottawa by the Canadian Tuberculosis Association against accepting food readily "brought for tuberculosis," announcements of which have been recently published.

Engineers of the Canadian Marconi Company are conferring with officials of the Radio Corporation of America on plans to start a short wave system between New York and Montreal.

On a clipping from an American rotogravure newspaper, Alexander L. McKay of North Vancouver made his will, two days before he died. The will was proving in supreme court there.

Proving that their interests require more adequate representation, residents in the North West Territories are petitioning the Dominion parliament for a seat to be provided for that section of the country.

After 52 years of continuous service, Frances E. Harrison, Vancouver postmaster, has been superannuated, effective June 20 next. On January 1 Mr. Harrison will leave on six months' vacation with full pay.

Canada Retires Loan

Financing By Federal Government Shows a Healthy State Of Affairs

An indication of the healthy state of Canada's financial condition is given in a recent announcement by Hon. James A. Tully, Canadian Minister of Finance, to the effect that of \$100,000,000 loans maturing between 1901 and December 1, \$75,000,000 will be paid out of revenue and the balance of \$25,000,000 will be taken care of by an issue of four per cent. three-year treasury notes which have been sold to the chartered banks of Canada at par. By this arrangement the interest charges of \$3,607,500 annually will be saved.

The sale of these treasury notes marks the first financing since 1912 which the Dominion government has effected at a not cost as low as four per cent. The treasury notes will be dated December 1, 1927.

Per Capita Power Installation

As the industrial prosperity of a country is largely dependent upon the amount of mechanical power available to its workers, Canada's high average of 513 horse-power of hydraulic installation per 1,000 of population places her in a most advantageous position among the countries of the world.

A safe and sure medicine for a child troubled with worms is Mother's Own Worm Expeller.

Value Of Dog Teams In Far North. What the camel is to the desert and the motor car is along macadamized roads, the "hunkie" is to travellers over the snows of Northern Canada. The efficiency of the dog team as means of travel is shown by the fact that a trained team can make a distance of 40 miles a day, and maintain this speed for days together.

Figures On Britain's Debt

Payments Made To U.S. For Excess Collections From Debtor Nations

No matter how many times the figures are given, there seems to be a belief that insists that Great Britain is collecting enough from her debtors to pay the amounts she hands over to the United States.

Here are the figures, as prepared by A. M. Samuel, financial secretary of the British Treasury.

This is what Britain received for the last fiscal year:

Germany \$45,000,000
Italy 7,000,000
France 7,000,000
Others 575,000

During the same period Britain paid to the United States \$194,000,000. Or, to make it very plain, put it down this way:

Britain paid out \$194,000,000
Britain received 60,575,000
Difference \$133,425,000.

Britain has to get out and dig for that difference; she had to take it from her people, and from sources that would otherwise have been turned to the production of revenue for domestic needs.

It might be worth while to clip these figures out and file them away. For it will not be long before some person again comes to the front with the claim that Britain is collecting in her debt from other nations as much as she is paying to the United States.

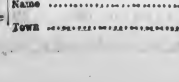

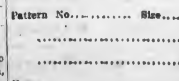

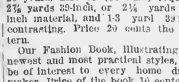

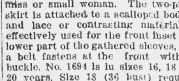

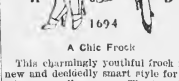

Summer Fairs Are Popular

Canadian National Exhibition Leads All Others On Continent In Attendance

The Canadian National Exhibition at Toronto led all the fairs on the continent last summer in attendance with 1,376,000. The state fair of Texas was second with attendance of 1,028,000. These figures were contained in the report of E. L. Richardson, of Calgary, president of the International Association of Fairs and Expositions.

Fairs each year are becoming more popular and more successful, educationally and financially. More than 24,000,000 persons attended the 2,368 fairs in the United States and Canada this year. The attendance has increased by about 2,000,000 persons every year since 1910.

Investment in fair buildings and grounds now totals about \$250,000,000, while premiums and prizes last year had a total value of more than \$5,000,000.

Aviation In Canada

People Not Sufficiently Interested and Country Is Lagging Behind

In one respect Canada is a decidedly backward country. It is behind almost every other civilized country in the development of aviation. It is not because there is less need of air service here than elsewhere, for, in a land of such vast distances and remote settlements not reached by ordinary means of transportation and communication, aviation should be of more practical use than in small and compact countries. It is not because our young men are not naturally qualified for air service and not interested in it, for in the last year of the great war most of the officers in the British air service were Canadians, and some of them were famous aces with records of achievement not surpassed by those of any other airman anywhere.

That somehow our civilian population has not become interested in air navigation, most Canadians regard airplanes still as playthings, and not as a means of transport, and that is the reason why we are behind.

Until recently it has been the attitude of most Americans also, but the system of airmail, and the fact that the system of airmail has been created in the United States, has created in the United States a public interest in aviation.

What Lindbergh has done in the States Major-General Maclellan, late chief of staff in the department of national defence, is in the process of doing here. He is working for the organization of a National Canadian Air League, with a branch in every town.

An address to the Empire Club at Toronto he outlined the objects of the league which are: "To ensure the best possible development of civil and commercial aviation in Canada; to foster Canadian education in aeronautical engineering, and inspire research and manufacture; to develop an air force adequate to the requirements of national defence." Objects, all of them, worthy the support and encouragement of every patriotic Canadian.

Every considerable Canadian town should have its public airfield.

Says Electric Power Will Be Broadcast

Scientist Believes It Will Be Accomplished Before Long

The tremendous development of the future will be made without fear of running out of gasoline—because no gasoline will be used. Nicola Tesla, eminent electrical scientist and inventor, makes the prediction with fact confidence, saying that electric power soon will be broadcast as radio waves now are.

Dismissing his statement to be that of a visionary, Tesla offers as proof of the fact that he is already has succeeded in sending power through the air—nearly half way around the world—with a loss of 1 per cent. of its strength. When this feat can be duplicated, it is clearly enough to make it applicable to practical use, power would be produced only at great central stations and there broadcast over a wide area for use in motor cars, aeroplanes, homes and factories.

Tesla believes he will live to see the plan in operation.

Recipes For This Week (By Betty Barclay)

POOR MAN'S PUDDING
6 cups whole milk.
1/2 cup rice.
1/2 cup sugar.
1 teaspoon salt.
1/2 teaspoon nutmeg.
1/2 cup raisins.

Put all together in a buttered pan in a moderate oven. Stir frequently at first, and then occasionally. Bake 2 hours. Should be creamy. Better cold than hot.

PINEAPPLE PUNCH
1 quart water.
2 cups sugar.
2 cups chopped pineapple.
1 cup orange juice.
1/2 cup lemon juice.

Boil water, sugar and pineapple 20 minutes. Add fruit juice, cold, strain and dilute with ice water if necessary. Either fresh or canned pineapple may be used.

Minard's Liniment For Grippe.

Exports of cheese from Canada for the 12 months ended October 31, 1927, totalled 117,818,500 pounds valued at \$2,667,501. Most of this cheese found a market in the British Isles. Exports of Canadian butter during the same period were 2,527,400 pounds valued at \$1,217,622.

Caplain—Right about, face!
Bookie—Thank goodness, I'm right about something!

Don't waste time sighing over what might have been; make the best of what is.

SUNDAY SCHOOL LESSON

DECEMBER 18
THE EARLY PROPHECIES OF ISRAEL

Golden Text: "God, having of old time spoken unto the fathers in his promises by divers portions and in diverse manners, hath at the end of these days spoken unto us in His Son."—Hebrews 1:1, 2.

Devotional Reading: Psalm 67.
A Review By Means Of Allusions
The sun is set; and in his latest beams
You little cloud of ashen gray and gold,
Floated upon the amber air unrolled,
The faltering mantle of the prophet seems—Longfellow.

The Assyrian came down like the wolf on the fold,
And his cohorts were gleaming in purple and gold;
Like the leaves of the forest when autumn has blown,
That host on the morrow lay withered and strown.—Byron.

We also have our calling of God, or rather, we have our mission, and around us, and beneath our feet the earth trembles, and about us, as first, threaten to destroy: John Pace Hopes.

Each one each ask himself whether he is seeking to please God by doing, justly, loving mercy, and walking humbly before Him: whether he is on the side of God, and of the things which are pleasing in God's sight.—Bertha P. Boyers.

On Carmel's height a strong man bowed in prayer;
Helpless apart from God, he prayed he bowed—Wendell A. Paxon.

The Nebuchadnezzars are God's axes with which he hews down ruthless kings. They are responsible for the ruin of the world. It is his hand that wields them.—Alexander Maclellan.

"In a very real sense we cannot indict a whole nation. The truth is, we are all to blame. In that country they have refused to bow the knee to Baal."

"We may win or we may lose, but all the pleasure in it goes when we succeed as we do at the gate.—F. B. Meyer.

"Let justice, unimpeded by avarice or selfishness or cruelty, roll down as water from off the altar.—Charles L. Burleigh.

"With the cords of a man Jesus is drawing men; in the bands of love He binds the world together."
Help us with the grace of courage, that we be none of us east when we sit in the west, and the ruins of our happiness or our integrity; touch us with the fire of Thy altar, that we may be up and doing to rebuild our city.—R. J. Stenerson.

Take the task He gives you gladly.
Let His work your pleasure be;
He will be up and doing to rebuild our city.—R. J. Stenerson.

"Up, Christians, leave your caves and go!"—F. B. Meyer.

"Some of the bill blind priests of the East, who, in the name of religion, sacrifice and burn-offerings." Then this prophet showed them the folly of all those empty signs of devotion apart from the inward spirit."

Many Deaths From Falls

Average About 14,000 Every Year in United States

It has been computed that fatalities in the United States due directly to falls, average about 14,000 per year. Thus, in the last eight years, more persons have lost their lives from this cause than from all the wars in which the United States has ever been engaged.

It is a prevailing practice among transportation lines to place conspicuously such signs as "Watch Your Step" and it would seem that a wider distribution of these warnings might result in the prevention of many distressing accidents.

Falls and accidents, like fires, generally result from small acts of carelessness or oversight. When temporary recklessness or a momentary thoughtlessness has cost many a life.—Thrill Magazine.

Camels Once Roamed West
Camels are commonly understood to belong exclusively to the Old World. It was not always so, however, as a specimen recently acquired by Canada's National Museum at Ottawa amply demonstrates. This is the fossilized frame of a camel which a few million years ago roamed over the western plains of North America which is then dry. This curious specimen has been placed on exhibition in the Hall of Paleontology.

They Just Don't Argue
The Trine of Wales says the person who says children can do without holidays is the sort of person one does not argue with. His Royal Highness might have added that the person who says children do require holidays is not the sort of person the boys and girls argue with.

Lawyer—Better plead guilty. The judge will give you only two years at the outside.
Culprit—Yas. But how many years do I make he give me? But what I want to know.

"Now I have bought you that book I hope that you will at least read me!"—Journal Annual, Paris.

New 'Plane Is Weather Proof

Can Travel Under Any Conditions
Opinion Of Inventor

An airplane which, it is said, will be able to cross the Atlantic and back in almost any weather, has been designed by four young aviators.

It has a rigid keel, though the ship is of the half-rigid type, and can carry with ease forty passengers and crew, while it can negotiate any of the difficulties met with in slight flying, or in tor.

Two big rigid airplanes are now being built by the British Government for long distance transatlantic and trans-oceanic transport, involving non-stop flights of 1,000 miles and upwards.

The new airplane has a torpedo shape without the usual projections. It is said to be a very comfortable and commodious will be provided, free from noise and vibration.

The new level arrangement is said to give an enormously increased internal strength. Thanks due to the delay of the emergency, hanging on water or in high wind, re-fueling in flight, have all been dealt with in detail.

Leon C. Lineville Sutton, late R.N., stated that although the envelope of the proposed new airplane is filled with inflammable gas no fears need be entertained as to its safety.

A new type of ground plant has been evolved for use on land or water which makes it possible to handle the ship's crew and a ground staff of two men.

Mr. Sirhan Wood, the designer, who fills the early predictions of H. G. Wells, qualified as an air pilot in 1912. He was one of the first 200 airmen to qualify in this country.

Has New War Device
Japanese Doctor Experiments With Human Hair As Explosive

Experiments with a new type of explosion which may revolutionize the nature of warfare and the explosive methods used in industry have developed in the Tokyo laboratory of Dr. Hanro Nakakawa, prominent Japanese authority on physics. The method is to pass a direct current of 40,000 volts and 10,000 amperes through a human hair or neck wire. Under such circumstances the hair explodes instantaneously, producing 10,000 degrees of heat, accompanied by a report as if many guns were fired. It is said Dr. Nakakawa began this experiment in an effort to solve mysteries relative to the atomic activity of the hot stars. Human hair is to be largely collected, the same material from which most modern high explosives are made.

Preserving "Pusher" Plane
Earliest One Used By Curtis Only Survivor Of Its Type

The old Curtis "Pusher" plane, in which Glenn Curtis made some of his earliest flights, has been placed among antiquities in the Smithsonian Institution. The plane, its joints loose and its frame rusty, has been hauled out from the junk heap at the Curtis Aeroplane Company's factory, and mechanics are getting it ready for its last resting place. It has been carbonized since 1925 when Bert Acosta took it up for an exhibition flight.

The plane so far as is known, is the only survivor of its type. It was known as a pusher plane because the engine was behind the pilot and the propeller pushed the plane along sometimes as fast as fifty miles an hour.

Sales Are Not Bright
Although whaling as a profession is almost extinct, one concern in Seattle still receives orders for harpoons from isolated whalers in the North Pacific and Atlantic. A recent order received was for three heavy whale harpoons to be shipped to a Norwegian port.

If you would be somebody in the world begin by being yourself.

CHAPTER XIII—Continued

To Helmi it was all a miracle. The lightning, which to her was a definite personality, a real, living spirit, terrible in its workings, had given Jack to her. Straight and quick and sure it had come and struck him into her arms. Maybe sometimes lightning did kind things for people. It couldn't be any other. Helmi felt the same thrill of something wonderful and vast, yet kindly, which swept her heart when she stood up to sing with the girls at the party in the church basement. She knew that God was her friend, God had spoken again in the lightning, Helmi was deeply awed, but deliciously happy. The lightning too, was her friend.

On the second morning Jack Doran vanished. Helmi was beside him in a moment.

"Tell me, Helmi," he said, "what happened? I remember the storm, and you coming running and calling to me. The lightning was blue over my neck, wasn't it?"

A great shiver seized Helmi, but she told him as well as she could.

"I am all right now, Helmi, and I am," he smiled dreamily.

She nodded.

After a long pause Jack resumed solemnly to realize what she had done. "You're a good Scout," he said, "how did you happen to come out through the storm?"

She told him all about Peter Hunt and her fears for him. "I know how you felt," she said, "about wanting to help, even if it was Sunday. It is good to build a house any day, but I was afraid God might not understand me and let me do it, so I sat out to get you."

"You're a good Plump-stri," Jack said dreamily. "What you let me sit up."

Helmi's eyes were very dreamy and tender when she ran downstairs and sent one of the men upstairs to help Jack to get dressed. The other men in the bunkhouse discussed the matter after she had gone. Old Sil, the night watchman, leading.

"I wouldn't wonder if Helmi, for all her naughty ways, would fall in love with young Jack. A woman loves to take care of a man, and, after all, most matches are made by an old conspirator called 'Proximity.' Any girl, any man—put them together—'Whiff!'"

Old Sil made a sound which seemed more like the blowing out of a match than making of one.

To Continue Livestock Business

United Grain Growers To Continue Operations in Western Provinces

A resolution definitely instructing the board of directors of the United Grain Growers, Ltd., to maintain the company's livestock business in the western provinces was adopted by delegates at the annual meeting at Winnipeg.

The resolution was passed after a five-hour discussion during which a directors' report was presented recommending the closing of the company's Alberta business. Alberta delegates vigorously opposed the report. The adopted resolution reads: "We instruct the directors to continue the operations of United Livestock Growers' Ltd., on the markets of St. Louis, face, Man, Calgary and Edmonton, and also at Moose Jaw if they consider it advisable to do so at that point."

The United Growers, Ltd., is the organization through which the cattle business of the U.G.G. is operated.

of the men, at which Bill Larsen's face darkened.

"Oh, Jack Doran," said Mrs. McManis scornfully; "Jack Doran will look a little higher than a foreign girl, and a waitress at that. His people are prominent citizens in the East, and although Jack is a wild young chap and likes his fun, he wouldn't go to the length of marrying so far out of his station. I know Jack pretty well, and I'm not afraid."

"Well, you know," said the man who had spoken first, "he wouldn't go so far wrong if he married Helmi. If you ask me, she's as good as a bride."

This conversation took place on a Sunday afternoon in September, Jack and Helmi had gone for a drive to the English River, where, beside the falls, they had cooked their bacon on the fire of sticks. It was a dreary day in the autumn, when the foliage was beginning to show like gold broad against the darker green of the mountains.

Helmi had brought her English record, and put it in his hand. "This is the real war," said "Red" Jack, she said, "this is the place."

"By Nebo's lonely mountains. On this side Jordan's wave, In a vale in the land of Moab There lies a lonely grave."

Jack read the poem through. "Do you understand it?" he asked.

Helmi shook her head. "Not all—some—but I love it. One does not have to understand it. It gives me such a happy feeling," touching her heart.

"That I want to cry. I know it is about a good man. His dream is to climb that mountain—that is over in that mountain—that would be good place. Read it again, Jack, please; I will watch you. Maybe I will see angels going into that cave."

Jack laughed. "Helmi, you're a queer stief," he said. "But he too found himself lifting his eyes to the smit mountains, for never before had he had the solemn and morbid; mawers throbbed with such majesty and power; and when it was done, and Helmi's eyes, shining with a hidden fire, looked into his, it seemed to him that the soundless feet of angels were passing by."

Helmi sat with her back against a tree, her shining hair catching the sunshine like the golden tress around her. Her eyes were fixed on the distant hills in deep adoration. To Jack it seemed like some beautiful spirit of the wood.

Eskimos Feared White Men

Reason the First Newcomers Were Killed Says Legend

Judge Bengtson has left with his sled on a trip to visit the Ice Cap. Before leaving he told this Eskimo legend:

Once two hunters went out in their boats and paddled for a very long time, days and nights. When they grew tired they would go ashore on a small island and rested a while. They were out looking for new lands and hunting grounds.

One day when they were paddling they saw a boat with two men in it. They thought the men were new countrymen, but when the Eskimos came closer they were very much surprised, because the two men in the boat had taken off all the hide from their faces and hands. They did not look like humans, they were both white.

The Eskimos tried to talk to them, but the two men in the boat had changed the human language, and were only making a noise which the Eskimos could not understand.

The Eskimos were very much frightened and harpooned the men and threw their bodies into the water.

The foregoing is said to be one of the very first traditions about white men up here.

The 190-1910 trip to the Greenland Ice Cap to which reference is made in the foregoing dispatch is to be made by tangsted and Professor James E. Church of the University of Michigan Expedition for the purpose of studying the weather in this area of storms.

They are travelling by dog team and plan a three-month stay at the Ice Cap.

If Adam were living he would be 151 years old, according to the calculations of the late John P. Brady of Baltimore, who found the first man was born in the Garden of Eden on October 23, 4004 B.C.

"If caught by traffic in the middle of the road, the best thing to do is to stand still," says an expert. And if time permits scribble a farewell message on the back of a visiting card.

Fifty new Wesleyan chapels have been opened in London in the past year.

A rainfall of one inch means 27,143 gallons of water per acre. This is equivalent to 228,015 pounds.

MADE WILL ON PAPER SCRAPS

Disposal of Queen Alexandra's Property is Hard Task

Recently there was a hurried and important gathering of the royal family at Sandringham to discuss Queen Alexandra's will and the disposition of her property.

That there have been difficulties in distributing the enormous variety of collection of gold and silver treasures, furniture, tapestries and objects of art is well known. This has been talked about in every club in the west for months.

One of the reasons for the delay in the Prince of Wales going into residence at Marlborough House is the difficulty over the disposal of the property.

King Edward told Queen Alexandra all his personal property at Sandringham Palace and the use of all his possessions in the way of furniture, pictures, plate, etc., at Sandringham for her life, these possessions were to revert to King George on her death.

When Queen Alexandra made Marlborough House her London home she had transferred there all King Edward's personal possessions that were at Sandringham Palace. How valuable these possessions are may be judged from the fact that the silver and gold treasure in the way of massive gold cups, tea services, candlesticks, silver bottles (silver and gold), some three feet in height, silver, etc., that King Edward left, were valued by court gold and silversmiths at £2,000,000 sterling.

All treasure was placed in the plate room at Marlborough House. It was apparently Queen Alexandra's intention to leave the bulk of her property to Prince Alfred, heir to the crown of Norway, and his faithful grandson.

But whatever her intention was, what she apparently did was this: From time to time she scribbled on half sheets of note paper how she valued her personal possessions disposed of after her death.

Aviators Are Worried

Lack Of Ice In Hudson's Straits Hampers Activity

Weather conditions in the Hudson's Straits are another factor that was generally supposed and the absence of ice in that body water was somewhat hampering aerial activities. This was stated by Alex Johnson, deputy minister of the air and industries, when asked as to the progress being made by the airmen operating in the straits.

The lowest temperature registered to December 5, according to reports received from the various air stations, was zero, while the mean barometric read was 23.22.

At Port Barrow, on the Eastern entrance of the straits, there was no ice in sight.

Three air stations were established this summer by the government for the purpose of making observations with a view to ascertaining how the period of navigation in and out of the straits might be extended and what aids to navigation might be required.

Have Started Long Hike

Paul Christensen and William Work, two Vancouver boys, started from Victory Square from Vancouver on December 2, on the first lap of a trans-continent walking tour which will take them to Saint John, N.B., by next September. Both are prominent athletes.

Cattle On Prairie Farms

There were 2,221,630 cattle on farms in the three Prairie Provinces of Canada—Manitoba, Saskatchewan, and Alberta, in 1925 according to the census taken last year by the Dominion Bureau of Statistics.

Artificial flowers made of feathers are becoming popular in England.

Lost Collection Of Gifts Of Remembrance

Have Been Placed Within Tomb Of Unknown Soldier

The tomb of the Unknown Warrior in Westminster Abbey was opened recently. The fact, which has become known to many persons has occasioned considerable surprise and some anxiety.

Exactly why the tomb was opened can now be explained.

This important step was taken by the War Office in order to enable them to place inside the tomb the lost collection of tokens of remembrance, some of them of great intrinsic value, placed upon it by the relatives of the fallen.

It was not until some time had elapsed after the formal consecration of the tomb that the problem of dealing with these spontaneous gifts became acute.

Every day the officials saw the pile of gold and silver trinkets, medals, crucifixes, rings and other articles, growing larger and larger.

For a time, the tokens were lodged with the Dean's vestry, but it soon became obvious that a permanent home would have to be found for them.

Accordingly, it was decided to place them in the tomb with the remains of the Unknown in whose honor they had been deposited.

The actual task of opening the tomb was conducted with the utmost care. In the presence of a few responsible officials a small cavity was made into which the pathetic collection of relics was gently and lovingly placed.

Predicts Rapid Growth Of Canada

Population Of 23,000,000 People By 1950, Believes Premier Gardiner Of Saskatchewan

A prediction that Canada would have a population of 23,000,000 people by 1950 and the declaration that the Dominion does not want parasites because "if there is any country in the world where men cannot live without working it is Canada," featured an address delivered by Premier James G. Gardiner of Saskatchewan at a Canadian Club banquet held in Brandon recently.

Mr. Gardiner graphically outlined the future development of Canada, and stressed the urgent necessity of increasing the country's population. He stated that a great many of the men who had made a success of farming in Saskatchewan had come to Canada early in life without farming experience.

Little Helps For This Week

"Blessed are they which do hunger and thirst after righteousness: they shall be filled."—Matthew 5:6

The body is not much. "I want rest. Take up the soul and leave the rest," and the closer it draws to God, the more the life it lives on this earth resembles that which it will enjoy in heaven, and the larger foretaste it has of the first fruits of that blessed harvest. Aspire, therefore, to holiness, without which no man shall see the Lord.—Archbishop Leighton.

The more the soul withdraws, so to speak, from the body, and retires with itself, the more it rises above itself; and the closer it draws to God, the more the life it lives on this earth resembles that which it will enjoy in heaven, and the larger foretaste it has of the first fruits of that blessed harvest. Aspire, therefore, to holiness, without which no man shall see the Lord.—Archbishop Leighton.

Dry Goods, Boots and Shoes and Clothes for the Whole Family

Personal and Local

"The most popular colors at Christmastide are 'long green' and 'holly green.'"

Yea! Everybody's going to the Carnival on Wednesday, Dec. 28, at the Crystal rink.

See the two famous stars, Wallace Beery and Raymond Hatton in "We're in the Air Now" at the Palace theatre on Friday and Saturday.

The wickets of the local post office will remain open on Wednesday December 21 until 5 p.m. for the mailing of parcels, etc. The Money Order wicket, however, will close at the usual hour, one o'clock.

Prize-winners at the Oddfellows whist drive last Saturday evening were Mrs. G. Dickson, Mrs. Walker, Mr. A. Lonsbury and Mr. Bowan, while the travelling prizes went to Miss Gillespie and Mr. J. Wilson.

Whist drive and dance to be held in the I. O. O. F. hall, Saturday, Dec. 17, starting at 8 o'clock. Lunch served. Come and have a good time. Good music. Prizes—turkey, chicken and "hooby." 17-1c

The feature picture at the Palace on Saturday last in which Pola Negri was the star, was enjoyed very much. Together with the comedy and the Fox News the program was well balanced and very favorably commented on.

At the St. Alban's W. A. whist drive on Saturday last the prize-winners were: turkeys, Mrs. J. Muir and Mr. W. Nelson; chickens, Mrs. Phillips and Mr. G. Morgan; consolation, Mrs. Glendinning and Mr. J. Hart. The hall was filled to capacity.

Ladies will be interested in the art transfer painting and needle and rug work demonstration which will be demonstrated free for one week at the Coleman Trading Co. store by Mrs. Lee, who is an expert and interesting demonstrator in these lines of art work. All ladies should attend.

In connection with the recent window dressing contest for Lux Soap, Mr. A. Oliva of the Coleman Trading Co. received a letter from Lever Bros., the manufacturers, stating that although his window was among the 220 awarded prizes, he was highly complimented on its advertising value, and a gift was sent in acknowledgement of his efforts. There were considerably over 1,000 entries, four being from Coleman.
